

**Dr. Pierce's Favorite Prescription,**

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol and that too in large quantities. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed in plain English on every bottle wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are free for the asking.

If you suffer from periodical headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, nerve disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

**An Odd Barometer.**

A curious barometer used in Germany and Switzerland consists of a jar of water with a frog and little step ladder in it. When the frog comes out of the water and sits on the steps it is said infallibly to foretell rain.

**Worth Remembering.**

The Court of Appeals in reversing a decision from the McCracken Circuit Court holds that a check drawn on a bank, prior to service of attachment of funds in the bank, but not actually cashed until after the service, must give precedence to the attachment which is held good.

**Japs May Pinch Nations Into War.**

Japanese Consul Uyeno at San Francisco, Cal., intimates the possibility of international complications between the United States and Japan unless Japanese children are allowed to attend all the public schools instead of being relegated to the Oriental schools with Chinese, Indians and negroes.

The Japanese Consul is to appear before the Board of Education and make formal protest in this matter on behalf of the Japanese children of that city. He asserts that the section of the school law in accordance with which the Oriental schools were established by the Board of Education is unconstitutional, and that before it is enforced it should be tested by the highest courts of the State.

If, in this eventuality, the law is upheld, it is said that Mr. Uyeno will appeal from its decision to the representatives of Japan at Washington. The Board of Education recently determined that all Japanese children must attend Oriental schools, the first of which has been opened there.

**The New Inheritance Tax**

The new inheritance tax law of Kentucky will be operative for the first time in the case of Louis Militz, an aged miser, who died in Louisville, leaving an estate of \$15,000. It is said that the inheritance tax and delinquent city, county and State taxes will reduce the estate to \$12,000. The legatees named in his will mainly are brothers in Germany.

**Fined \$108,000.**

Judge Holt, in the United States Circuit Court, Friday, imposed a fine of \$108,000 on the New York Central & Hudson River Railroad Company for granting rebates to Lowell M. Palmer, who has charge of transportation for the American Sugar Refining Company. There were six counts, and a fine of \$17,000 was imposed in each. Frederick L. Pomeroy, assistant traffic manager of the New York Central, was fined \$1,000 on each count, a total of \$6,000.

**Women As Undertakers.**

A new field has been opened for women in New York City, and when they get tired of all other occupations, they have but to hand in an application, take a few lessons in embalming, and become full-fledged undertakers. Whether or not women will ever make a success as undertakers is a question upon which those who have studied the question have failed to agree. There are now less than a dozen women undertakers in New York city, but these are all over-worked. The field is large but most women do not care to follow the trade.

When the Rev. Steven Merritt, an undertaker, moved into the place of business he now occupies, he determined that women had as much right in the undertaking business as men, and he advertised for them to learn the business. There were many volunteers, but they all quit after their first job, some of them before the work was half done. Most of them collapsed and had to be taken from the room in which the body was being prepared for the grave.

All but one of the women answering the advertisement decided that they would like to earn their living in some other manner. The one who stayed it out was Mrs. Kate Carrus, and she is still in the employ of Mr. Merritt, and is one of his most trusted hands. She not only prepares a body for the casket, but in many cases attends to every detail pertaining to the funeral.

**Hooligans Troubles.**

It has been said with much justice that the cardinal principle of American humor is exaggeration. This is shown in its highest form in the inimitable stories of Mark Twain, and reaches its latest vogue in the work of George Ade. The play given at the Elysium this week exploits this side of what

**IT'S ME**

may be called national humor, for its exaggerations and abnormal absurdities would not be appreciated or understood in any other country.

The play, "Hooligan's Troubles," is based upon the adventures of that hobo and the weariest Willies who belongs to the same comic family as "The Yellow Kid" and "Sunny Jim."

The play that is woven round the character of Hooligan is an uproarious farce. It is highly improbable, smashes all the unities, is absolutely without shading. Hooligan's figure and make-up set at naught all the laws of anatomy but, with all this, the play is enjoyable and laugh-provoking. The man who can sit through the show without laughing long and loud must be one of a very escetic temperament. — New Orleans Times-Democrat.

**He Speaks Here Today.**

The following is what the Madisonville Hustler says of Gen. N. B. Hays, who speaks here today at 1:30 o'clock: "Gen. Hays began his life a humble mountain boy. He was left an orphan to fight the battles of life alone and unaided. He worked his way through college, studied law and has been an ornament to the profession. 'Duty' has been his motto all through his life and his success is an inspiration to every poor boy with ambition in the State. He does not suit the machine politicians because he is thoroughly honest and hews strictly to the law in the performance of public duty. But he suits the people."

—Thos. McIlintock & Sons, of Millersburg, shipped ninety head of cattle to Pittsburg Thursday, averaging 1,400 pounds. They sold two mules to John Marshall for \$300.

—J. Will Bedford sold to W. D. McIntyre, of Millersburg, fifty-one head of export cattle that averaged 1,500 pounds, at \$5.35. This is best sale of cattle reported this season in Bourbon.

—Hibler Bros. has purchased in last few days 280 head of cattle, averaging from 1,200 to 1,400 pounds, at from \$4.90 to \$5, and 35 yearlings at \$4.125. They have sold to Wm. Becraft 13 sheep at \$6.95; to Frank Barton 132 head of sheep at \$6.6.

—An Angora goat on exhibition recently at the Kansas City Show is attracting considerable attention. Last Spring this buck sheared 21½ pounds of mohair wool, 12 to 23 inches long, which sold for \$6.50 per pound, or a total for the entire fleece of \$19.75. The buck is valued at \$2,500.

—W. D. McIntyre bought of O. L. Rankin twenty-seven 1,450 pound cattle at 5 cents. Mr. McIntyre made the following sales: To Charles Thompson, of Lexington, five aged mare mules for \$950; to J. M. Hutsell, of Greenville, Miss., two 3-year-old mare mules for \$350, and to Mr. Bell, on Harrods Creek, 185 stock ewes at \$6 per head.

—The demand for pork this year has astonished even the most sanguine friends of the hogs. Both fresh and cured meats have been taken in large volume right along at prices which were so high that they were expected to check consumption. There are three reasons why this condition has existed and still exists. First is the prosperity of the South, a large consumer of cured meats. The Southern trade was never larger than today. Next is the growing foreign trade, which like our own seems to proceed regardless of prices. And finally the people of this country have learned to eat bacon. Its consumption is unprecedented in our history and is still growing. There has been no shortage in number of hogs but a vastly increasing demand. This is why prophecies based on hog supplies have failed and are likely to fail in the future.

**An Important Opinion.**

The Court of Appeals has affirmed the case of the United States Life Assurance Company of New York, versus Harry Spinks, of Campbell county. This case was sent up from Campbell and the court construes Section 88, chapter 690 of the New York Statutes, and holds that policyholders must have an annual accounting, and practically knock out all deferred dividends. The case is one of the greatest importance. Judge O'Rear wrote the opinion, which is exhaustive, and upholds the law passed by the 1st Legislature at the instance of Commissioner Prewitt.

**Injunction Refused.**

Circuit Judge John M. Galloway, at Bowling Green Saturday, refused to grant an injunction to restrain the Democratic Executive Committee from holding a primary to nominate candidates for State offices, and also a candidate for United States Senator. Judge Galloway, in his opinion, which was rendered immediately after the close of argument by the attorneys, held that the abrogation of the rule requiring votes in the primary to disclose how they had voted in the congressional race removed the only objection which could have been raised to the primary, and that the other grounds on which the Republican attorneys, representing the plaintiff, relied in their suit, are unavailing. No further action to prevent the holding of the primary on November 6 can be taken.
